

SAFEGUARDING (CHILD PROTECTION) POLICY

THE VILLA PRE PREP & NURSERY SCHOOL

The Villa is committed to providing a safe and secure environment for children, staff and visitors and promoting a culture of openness, trust and transparency where children and staff will feel confident about sharing any concerns which they may have about their own safety or the well-being of others. We aim to safeguard and promote the welfare of children by protecting them from maltreatment; preventing impairment of children's health or development; ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and taking action to enable all children to have the best outcomes.

The Villa's Safeguarding policy draws upon duties conferred by the Children Acts 1989 and 2004, The Education and Inspections Act 2006, The Serious Crimes Act (2015), The Children and Families Act 2014, S175 of the 2002 Education Act, The Education (Independent School Standards) Regulations 2014 (for independent schools), The Non-Maintained Special Schools (England) Regulations 2015 (for non-maintained special schools), The Apprenticeship, Skills, Children and Learning Act (2009), The Education and Training (Welfare of Children) Act 2021, The Mental Capacity Act 2005, The Care Act 2014, and the guidance contained in "[Working Together to Safeguard Children](#)", the DfE's statutory guidance "[Keeping children safe in education](#)", Ofsted Guidance and procedures produced by the London Safeguarding Children Partnership (LSCP) and the Southwark Safeguarding Children Partnership (SSCP). We also have regard to the advice contained in DfE's "[What to do if you're worried a child is being abused](#)" and "[Information Sharing – Advice for practitioners](#)". The policy is applicable to all on and off-site activities undertaken by pupils whilst they are the responsibility of The Villa.

We will ensure that all staff read at least Part one of DfE guidance "[Keeping children safe in education](#)" and that mechanisms are in place to assist staff to understand and discharge their role and responsibilities as set out in Part one.

POLICY AIMS

The purpose of this policy is to:

- Identify the names of responsible persons in the school and nursery and explain the purpose of their role
- Outline the role of the Director
- Describe what should be done if anyone in the school and nursery has a concern about the safety and welfare of a child who attends the school and nursery
- Identify the particular attention that should be paid to those children who fall into a category that might be deemed "vulnerable"
- Set out expectations in respect of training
- Ensure that those responsible for recruitment are aware of how to apply safeguarding principles in employing staff
- Set out expectations of how to ensure children are safeguarded when there is potential to come into contact with non-school or nursery staff, e.g. volunteers, contractors etc.
- Outline how complaints against staff will be handled
- Set out expectations regarding record keeping
- Clarify how children will be kept safe through the everyday life of the school and nursery
- Outline how the implementation of this policy will be monitored.

This policy is consistent with all other policies adopted by the Director and should in particular be read in conjunction with the following policies relevant to the safety and welfare of children:

- Health & Safety
- Code of Conduct

- First Aid
- Behaviour & Sanctions (Nursery)
- Behaviour Management & Anti-bullying (School)
- E – Safety
- Confidentiality
- Outings & Visits
- Toileting and Nappy Changing

RESPONSIBILITIES AND IMMEDIATE ACTION

Safeguarding and promoting the welfare of children in our school and nursery is the responsibility of the whole school and nursery community. All adults working at The Villa (including visiting staff, volunteers and students on placement) are required to report instances of actual or suspected child abuse or neglect to the Designated Safeguarding Lead who is a member of the leadership team.

The Designated Safeguarding Lead are: Tatiana Homer & Louise Maughan

The Deputy Designated Safeguarding Leads is: Kasia Janda

They can be contacted by telephone on 020 7703 6216.

Tatiana.homer@thevillaschoolandnursery.com

Louise.maughan@thevillaschoolandnursery.com

Kasia.janda@thevillaschoolandnursery.com

The Designated Safeguarding Lead (DSL) who is a senior member of the School takes lead responsibility for safeguarding and child protection (including online safety and understanding the filtering and monitoring systems and process in place) and provides advice and support to other staff on child welfare and child protection matters, takes part in strategy discussions and inter-agency meetings, and/or supports other staff to do so, and contributes to the assessment of children.

DSL is responsible for ensuring that filtering and monitoring systems and process for the school's IT systems are in place and updated in accordance with the latest DfE guidance.

DSL is the first point of contact for external agencies that are pursuing Child Protection investigations and co-ordinates the school's representation at CP conferences and Core Group meetings (including the submission of written reports for conferences). When an individual concern/incident is brought to the notice of the Designated Safeguarding Lead, they will be responsible for deciding upon whether or not this should be reported to other agencies as a safeguarding issue. Where there is any doubt as to the seriousness of this concern, or disagreement between the Designated Safeguarding Lead and the member of staff reporting the concern, advice will be sought from the Deputy Designated Safeguarding Lead (DDSL) or the LA's Strategic Lead Officer for safeguarding in education services. If a child is in immediate danger or is at risk of harm, a referral will be made to Southwark Multi Agency Safeguarding Hub ([MASH](#)) (or its equivalent in another LA if the child resides in a different LA) and/or the police immediately.

DSL will exercise their duty to challenge the actions and decisions of Children Social Care or any other partner agency, in accordance with Southwark Safeguarding Children Partnership (SSCP), local Escalation Procedures (or relevant LSCP's escalation procedures if the child resides in a different LA) where it is believed that an individual professional agency might not be acting in the best interest of the child concerned.

Although all staff should be aware of the process for making referrals to children's social care and for statutory assessments that may follow a referral, along with the role they might be expected to play in such assessments, the DSL (and any deputies) are most likely to have a complete

safeguarding picture and be the most appropriate person to advise on the response to safeguarding concerns. The DSL or a deputy will always be available to discuss safeguarding concerns. If in exceptional circumstances, the DSL (or deputy) is not available, this should not delay appropriate action being taken. Staff should consider speaking to a member of the senior leadership team and/or take advice from local children's social care. In these circumstances, any action taken should be shared with the DSL (or deputy) as soon as is practically possible.

THE ROLE OF THE DIRECTOR

The Director will ensure that they comply with their duties under legislation and that the policies, procedures and training in the school and nursery are effective and comply with the law at all times. The Director is expected to receive appropriate training on safeguarding at induction that is updated regularly. In addition, they should receive information (for example, via emails, e-bulletins and newsletters) on safeguarding and child protection at least annually so that they can demonstrate knowledge of their responsibilities relating to the protection of children, young people and vulnerable adults.

The Director will ensure that The Villa contributes to inter-agency working in accordance with statutory guidance "[Working Together to Safeguard Children](#)" and that The Villa's safeguarding arrangements take into account the procedures and practice of the local authority as part of the inter-agency safeguarding procedures set up by the Southwark Safeguarding Children Partnership (SSCP).

The Director has formally adopted this policy and will review its contents annually or sooner if any legislative or regulatory changes are notified to it by the head teacher.

Concerns about and allegations of abuse made against the head teacher will be referred to the Director who will liaise with the LA's designated officer (DO) and partner agencies and will attend any strategy meetings called in respect of such an allegation against the head teacher.

As good practice, the Director will meet on a regular basis with the DSL to monitor The Villa's safeguarding arrangements and both the volume and progress of cases where a concern has been raised to ensure that the school and nursery are meeting its duties in respect of safeguarding.

Types of child abuse and neglect

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. They may be abused by an adult or adults or another child or children.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for

example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Safeguarding incidents and/or behaviours can be associated with factors outside The Villa and/or can occur between children outside school and nursery. All staff, but especially the DSL and DDSLs will be considering the context within which such incidents and/or behaviours occur. This is known as [Contextual Safeguarding](#), which simply means assessments of children should consider whether wider environmental factors are present in a child's life that are a threat to their safety and/or welfare.

In addition to these types of abuse and neglect, members of staff will also be alert to following specific safeguarding issues:

Mental Health

We are aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem. Our staff members however, are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one. Where children have suffered abuse and neglect, or other potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. It is key that our staff members are aware of how these children's experiences can impact on their mental health, behaviour and education. If staff have a mental health concern about a child that is also a safeguarding concern, this will be shared with the DSL with a view to referring to appropriate agencies following the referral procedures. We also note the DfE's advice and guidance on [Mental Health and Behaviour in Schools](#).

Child Criminal Exploitation (CCE)

CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any criminal activity in exchange for something the victim needs or wants, and/or for the financial or other advantage of the perpetrator or facilitator and/or through violence or the threat of violence. The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

CCE can include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country (county lines), forced to shoplift or pickpocket, or to threaten other young people. Some of the indicators of CCE are: children who appear with unexplained gifts or new possessions; children who associate with other young people involved in exploitation; children who suffer from changes in emotional well-being; children who misuse drugs and alcohol; children who go missing for periods of time or regularly come home late; and children who are regularly absent

from school or education or do not take part in education. Any possible CCE case will be shared with the DSL with a view to referring to appropriate agencies following the referral procedures.

Child Sexual Exploitation (CSE)

CSE is a type of sexual abuse in which children are sexually exploited for money, power or status. Children or young people may be tricked into believing they are in a loving, consensual relationship. They might be invited to parties and given drugs and alcohol. They may also be groomed online. Some indicators of children being sexually exploited are: going missing for periods of time or regularly coming home late; being regularly absent from school or education or not taking part in education; appearing with unexplained gifts or new possessions; associating with other young people involved in exploitation; having older boyfriends or girlfriends; suffering from sexually transmitted infections; mood swings or changes in emotional wellbeing; drug and alcohol misuse and displaying inappropriate sexualised behaviour. A child under the age of 13 is not legally capable of consenting to sex (it is statutory rape) or any other type of sexual touching. Sexual activity with a child under 16 is also an offence. It is an offence for a person to have a sexual relationship with a 16 or 17 year old if that person holds a position of trust or authority in relation to the young person. Non consensual sex is rape whatever the age of the victim. If the victim is incapacitated through drink or drugs, or the victim or his or her family has been subject to violence or the threat of it, they cannot be considered to have given true consent and therefore offences may have been committed. Child sexual exploitation is therefore potentially a child protection issue for all children under the age of 18. Further information on signs of a child's involvement in sexual exploitation is available in Home Office guidance: [Child sexual exploitation: guide for practitioners](#).

Where it comes to our notice that a child under the age of 13 is, or may be, sexually active, whether or not they are a pupil of this school, this will result in an immediate referral to Children's Services. In the case of a young person between the ages of 13 and 16, an individual risk assessment will be conducted in accordance with the [London Safeguarding Children Procedures](#). This will determine how and when information will be shared with parents and the investigating agencies.

'Sexting'

Creating and sharing sexual photos and videos of under-18s is illegal. Sharing youth produced sexual imagery, which is commonly known as 'sexting' covers the incidents where

- A person under the age of 18 creates and shares sexual imagery of themselves with a peer under the age of 18
- A person under the age of 18 shares sexual imagery created by another person under the age of 18 with a peer under the age of 18 or an adult
- A person under the age of 18 is in possession of sexual imagery created by another person under the age of 18.

When such an incident involving youth produced sexual imagery comes to a member of staff's attention, this will be shared with the designated safeguarding lead with a view to referring to appropriate agencies following the referral procedures. Further information and advice on youth produced sexual imagery is available in the non-statutory guidance produced by the UK Council for Child Internet Safety (UKCCIS) '[Sexting in schools and colleges](#)'.

Peer on peer abuse

Children are capable of abusing their peers. This can take different forms, such as physical abuse (such as bullying, including cyber bullying, hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm; violence, particularly pre-planned, forcing other children to use drugs or alcohol, initiation/hazing type violence and rituals), emotional abuse (blackmail or extortion, threats and intimidation) sexual violence and sexual harassment; sexting, sexual abuse (indecent exposure, indecent touching or serious sexual assaults, forcing other children to watch pornography or take part in sexting) and sexual exploitation (encouraging other children to engage in inappropriate sexual behaviour, having an older boyfriend/girlfriend, associating with unknown

adults or other sexually exploited children, staying out overnight, photographing or videoing other children performing indecent acts). Although it is more likely that girls will be victims and boys perpetrators, all peer on peer abuse is unacceptable and will be taken seriously. We do not tolerate these or pass them off as “banter”, “just having a laugh” or “part of growing up”.

The Villa has a strong commitment to an anti-bullying policy and will consider all coercive acts and peer on peer abuse within a Child Protection context. We recognise that some pupils will sometimes negatively affect the learning and wellbeing of other pupils and their behaviour will be dealt with under The Villa behaviour policies. As a school and nursery, we will minimise the risk of allegations against other pupils by providing a developmentally appropriate PSHE syllabus which develops pupils’ understanding of acceptable behaviour and keeping themselves safe, having systems in place for any pupil to raise concerns with staff, knowing that they will be listened to, believed and valued, delivering targeted work on assertiveness and keeping safe to those pupils identified as being at risk, developing robust risk assessments and providing targeted work for pupils identified as being a potential risk to other pupils. Any possible peer on peer abuse case will be shared with the DSL with a view to referring to appropriate agencies following the referral procedures.

Sexual violence and sexual harassment between children

Sexual violence and sexual harassment can occur between two children of any age and sex. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children. It can occur online and offline (both physically and verbally). It is more likely that girls will be the victims of sexual violence and sexual harassment and more likely it will be perpetrated by boys. Children who are victims of sexual violence and sexual harassment will find the experience stressful and distressing. This will affect their educational attainment. Staff will share any concerns about or knowledge of such incidents immediately with the DSL with a view to ensuring that support systems are in place for victims (and alleged perpetrators). We take these incidents seriously and ensure that victims are protected, offered appropriate support and every effort is made to ensure their education is not disrupted. Where necessary, we will work with relevant external agencies to address the issue, which may include a referral to MASH and reporting to the Police. Further information is available in ‘*Part 5: Child on child sexual violence and sexual harassment*’ of DfE guidance “[Keeping children safe in education](#)”.

Domestic abuse

Domestic violence and abuse is any incident or pattern of incidents of controlling, coercive, threatening behaviour, violence or abuse between those aged 16 or over who are, or have been, intimate partners or family members regardless of gender or sexuality. The abuse can encompass, but is not limited to psychological, physical, sexual, financial and emotional. All children can witness and be adversely affected by domestic abuse in the context of their home life where domestic abuse occurs between family members. Exposure to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result. If members of staff have a concern about or knowledge of any domestic abuse incidents, they will share it immediately with the DSL with a view to referring to appropriate agencies. Information is available about [Domestic abuse and how to get help in Southwark](#). Southwark Council’s support and service provider Solace (020 7593 1290, southwark@solacewomensaid.org) offer free and confidential support for women and men aged 16 or over who are survivors of domestic abuse.

So-called ‘honour-based’ violence (HBV)

HBV includes incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. Abuse committed in the context of preserving “honour” often

involves a wider network of family or community pressure and can include multiple perpetrators. All forms of HBV are abuse (regardless of the motivation) and will be handled and escalated as such. If members of staff have a concern about or knowledge of a child that might be at risk of HBV or who has suffered from HBV, they will share it immediately with the DSL with a view to referring to appropriate agencies.

Child criminal exploitation: county lines

Criminal exploitation of children is a geographically widespread form of harm that is a typical feature of county lines criminal activity: drug networks or gangs groom and exploit children and young people to carry drugs and money from urban areas to suburban and rural areas, market and seaside towns. Key to identifying potential involvement in county lines are missing episodes, when the victim may have been trafficked for the purpose of transporting drugs. Like other forms of abuse and exploitation, county lines exploitation can affect any child or young person (male or female) under the age of 18 years; can still be exploitation even if the activity appears consensual; can involve force and/or enticement-based methods of compliance and is often accompanied by violence or threats of violence; can be perpetrated by individuals or groups, males or females, and young people or adults; and is typified by some form of power imbalance in favour of those perpetrating the exploitation. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, cognitive ability, physical strength, status, and access to economic or other resources.

Violence Against Women and Girls (VAWG)

VAWG is defined as any act of gender-based violence that results in, or is likely to result in physical, sexual or psychological harm or suffering to women including threats of such acts, coercion or arbitrary deprivation of liberty, whether occurring in public or private life. VAWG is the umbrella term which brings together multiple forms of serious violence such as crimes committed in the name of “honour”; domestic abuse; female genital mutilation (FGM); forced marriage; sexual violence, abuse, exploitation and rape; stalking; harassment; trafficking for sexual exploitation; prostitution. If members of staff have a concern about or knowledge of any VAWG incidents, they will share it immediately with the DSL with a view to referring to appropriate agencies. We also note [Southwark's VAWG Strategy](#).

Female Genital Mutilation (FGM)

FGM is a procedure where the female genital organs are injured or changed and there is no medical reason for this. It is frequently a very traumatic and violent act for the victim and can cause harm in many ways. The practice can cause severe pain and there may be immediate and/or long-term health consequences, including mental health problems, difficulties in childbirth, causing danger to the child and mother; and/or death.

FGM is a deeply embedded social norm, practised by families for a variety of complex reasons. It is often thought to be essential for a girl to become a proper woman, and to be marriageable. The practice is not required by any religion.

FGM is an unacceptable practice for which there is no justification. It is child abuse and a form of violence against women and girls.

FGM is prevalent in 30 countries and is a deeply rooted practice, widely carried out mainly among specific ethnic populations in Africa and parts of the Middle East and Asia. While FGM is concentrated in countries around the Atlantic coast to the Horn of Africa, in areas of the Middle East like Iraq and Yemen, it has also been documented in communities in Colombia, Iran, Israel, Oman, The United Arab Emirates, The Occupied Palestinian Territories, India, Indonesia, Malaysia, Pakistan and Saudi Arabia. It has also been identified in parts of Europe, North America and Australia.

FGM is illegal in the UK. It is estimated that approximately 60,000 girls aged 0-14 were born in England and Wales to mothers who had undergone FGM and approximately 103,000 women aged

15-49 and approximately 24,000 women aged 50 and over who have migrated to England and Wales are living with the consequences of FGM. In addition, approximately 10,000 girls aged under 15 who have migrated to England and Wales are likely to have undergone FGM.

We note a new duty that was introduced on 31 October 2015 that requires teachers, which includes qualified teachers or persons who are employed or engaged to carry out teaching work in schools and other institutions to report 'known' cases of FGM in girls aged under 18 to the police. The duty applies to any teacher who is employed or engaged to carry out 'teaching work', whether or not they have qualified teacher status, in maintained schools, academies, free schools, independent schools, non-maintained special schools, sixth form colleges, 16-19 academies, relevant youth accommodation or children's homes in England. The duty does not apply in relation to suspected cases – it is limited to 'known' cases' (i.e. those which are visually identified or disclosed to a professional by the victim). The duty does not apply in cases where the woman is over 18 at the time of the disclosure/discovery of FGM (even if she was under 18 when the FGM was carried out). Further information on this duty can be found in the document "[Mandatory Reporting of Female Genital Mutilation – procedural information](#)".

Preventing Radicalisation

The Counter-Terrorism and Security Act 2015 places a duty on specified authorities, including local authorities and childcare, education and other children's services providers, in the exercise of their functions, to have due regard to the need to prevent people from being drawn into terrorism ("the Prevent duty"). Young people can be exposed to extremist influences or prejudiced views, in particular those via the internet and other social media. Schools can help to protect children from extremist and violent views in the same ways that they help to safeguard children from drugs, gang violence or alcohol.

Examples of the ways in which people can be vulnerable to radicalisation and the indicators that might suggest that an individual might be vulnerable:

- Example indicators that an individual is engaged with an extremist group, cause or ideology include: spending increasing time in the company of other suspected extremists; changing their style of dress or personal appearance to accord with the group; their day-to-day behaviour becoming increasingly centred around an extremist ideology, group or cause; loss of interest in other friends and activities not associated with the extremist ideology, group or cause; possession of material or symbols associated with an extremist cause (e.g. the swastika for far right groups); attempts to recruit others to the group/cause/ideology; or communications with others that suggest identification with a group/cause/ideology.
- Example indicators that an individual has an intention to use violence or other illegal means include: clearly identifying another group as threatening what they stand for and blaming that group for all social or political ills; using insulting or derogatory names or labels for another group; speaking about the imminence of harm from the other group and the importance of action now; expressing attitudes that justify offending on behalf of the group, cause or ideology; condoning or supporting violence or harm towards others; or plotting or conspiring with others.
- Example indicators that an individual is capable of contributing directly or indirectly to an act of terrorism include: having a history of violence; being criminally versatile and using criminal networks to support extremist goals; having occupational skills that can enable acts of terrorism (such as civil engineering, pharmacology or construction); or having technical expertise that can be deployed (e.g. IT skills, knowledge of chemicals, military training or survival skills).

The examples above are not exhaustive and vulnerability may manifest itself in other ways. There is no single route to terrorism nor is there a simple profile of those who become involved. For this reason, any attempt to derive a 'profile' can be misleading. It must not be assumed that these characteristics and experiences will necessarily lead to individuals becoming terrorists, or that these indicators are the only source of information required to make an appropriate assessment about vulnerability.

Channel is a programme which focuses on providing support at an early stage to people who are identified as being vulnerable to being drawn into terrorism that uses existing collaboration between local authorities, the police, statutory partners (such as the education sector, social services, children's and youth services and offender management services) and the local community.

We will refer children at risk of harm as a result of involvement or potential involvement in extremist activity to Southwark Multi Agency Safeguarding Hub ([MASH](#)). The MASH will share the referral details of new referrals with the Prevent lead police officer and LA Prevent coordinator at the point the referral is received. The referral will then be processed through the MASH multi agency information sharing system and parallel to this the Prevent police officer will be carrying out initial screening checks. The Prevent police officer will make a referral to the Channel Practitioner if there are sufficient concerns.

Private Fostering

Private fostering is when a child under the age of 16 (under 18 if disabled) is cared for by someone who is not their parent or a 'close relative'. This is a private arrangement made between a parent and a carer, for 28 days or more. Close relatives are defined as step-parents, grandparents, brothers, sisters, uncles or aunts (whether of full blood, half blood or by marriage). Great grandparents, great aunts, great uncles and cousins are not regarded as close relatives.

The law requires that Southwark Council should be notified if anyone is looking after someone else's child for 28 days or more. The purpose of the council's involvement is to support the child and private foster family (and wherever possible the biological parent/s) with any issues arising. These may be practical issues such as benefits, housing, immigration or emotional issues such as keeping contact with biological family, maintaining cultural identity.

If we become aware of a child in a private fostering arrangement within Southwark, we will notify the council's Multi Agency Safeguarding Hub ([MASH](#)) by emailing MASH@southwark.gov.uk or calling **020 7525 1921**. Advice about whether there is a need to notify the council, can be obtained by contacting MASH. In case of a non-Southwark child, we will notify the relevant LA.

REFERRALS

Where there is a safeguarding concern, we take into account the child's wishes and feelings when determining what action to take and what services to provide. We have systems in place for children to express their views and give feedback. We acknowledge that children who are affected by abuse or neglect may demonstrate their needs and distress through their words, actions, behaviour, demeanour, school work or other children. Ultimately, all our systems and processes operate with the best interests of the child at heart.

Referrals to services regarding concerns about a child or family typically fall into three categories:

- Early Help Services;
- Child in need - Section 17 (Children Act 1989) referrals;
- Child protection - Section 47 (Children Act 1989) referrals.

[The Southwark Safeguarding Board Multi Agency Threshold Guide](#) sets out the different levels of need and detailed guidance about how concerns within these different levels should be responded to by Southwark agencies.

Safeguarding referrals should be made to Southwark Multi Agency Safeguarding Hub ([MASH](#)) via [Referral Form](#) and copied to the LA's Schools Safeguarding Coordinator. Prior to any written IARF being sent as a referral to social care, there should be a verbal consultation with the MASH social worker or manager, by calling the duty desk on **020 7525 1921**, to ensure that making a referral is an appropriate action. The parent/carer will normally be contacted to obtain their consent before a referral is made. However, if the concern involves, for example alleged or suspected child sexual abuse, Honour Based Violence, fabricated or induced illness or the Designated Safeguarding Lead has reason to believe that informing the parent at this stage might compromise the safety of the child or a staff member, nothing should be said to the parent/carer ahead of the referral, but a rationale for the decision to progress without consent should be provided with the referral.

When we make a referral, the local authority should make a decision, within one working day of a referral being made, about the type of response that is required and should let us, as the referrer know the outcome. We will follow up if this information is not forthcoming.

If, after a referral, the child's situation does not appear to be improving, we will consider local escalation procedures to ensure that the concerns have been addressed and, most importantly, that the child's situation improves.

The [Early Help Referral Form](#) will be used to request additional early help for a family when the needs of a child are beyond the level of support that can be provided by universal services. Southwark's [Family Early Help Service](#) Duty number is **020 7525 1922**, which will give four options:

- General enquiries and signposting
- Family Early Help Duty Manager for general advice including consultations around potential and new referrals and current casework
- Education, Inclusion and Attendance support and advice including all enforcement activity
- Parenting support and advice and information on parenting course and group work programmes

In circumstances where a child has an unexplained or suspicious injury that requires urgent medical attention, the CP referral process should not delay the administration of first aid or emergency medical assistance. **If a pupil is thought to be at immediate risk because of parental violence, intoxication, substance abuse, mental illness or threats to remove the child during the school day, for example, urgent Police intervention will be requested.**

Where a child sustains a physical injury or is distressed as a result of reported chastisement, or alleges that they have been chastised by the use of an implement or substance, this will immediately be reported for investigation.

All parents applying for places at The Villa will be informed of our safeguarding responsibilities and the existence of this policy. In situations where pupils sustain injury or are otherwise affected by an accident or incident whilst they are the responsibility of the school and nursery, parents will be notified of this as soon as possible.

The Villa recognises the need to be alert to the risks posed by strangers or others (including the parents or carers of other pupils) who may wish to harm children in school or nursery or pupils travelling to and from The Villa and will take all reasonable steps to lessen such risks.

VULNERABLE PUPILS

Particular vigilance will be exercised in respect of pupils who are subject to Child Protection Plan and any incidents or concerns involving these children will be reported immediately to the allocated Social Worker (and confirmed in writing; copied to the LA's Schools Safeguarding Coordinator). If the pupil in question is a Looked-After child, this will also be brought to the notice of the Designated Person with responsibility for children in public care.

We acknowledge that children with special educational needs (SEN) and disabilities can face additional safeguarding challenges. We are aware that additional barriers can exist when recognising abuse and neglect in this group of children. This can include assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration; children with SEN and disabilities can be disproportionately impacted by things like bullying- without outwardly showing any signs; and communication barriers and difficulties in overcoming these barriers.

If a pupil discloses that they have witnessed domestic abuse or it is suspected that they may be living in a household, which is affected by family violence, this will be referred to the Designated Safeguarding Lead as a safeguarding issue.

The Villa also acknowledges the additional need for support and protection of children who are vulnerable by virtue of homelessness, refugee/asylum seeker status, the effects of substance abuse within the family, those who are young carers, mid-year admissions, pupils who are excluded from

school and pupils where English is an additional language, particularly for very young children, using the translation service if necessary.

TRAINING

All staff members will receive appropriate safeguarding and child protection training (including online safety, which amongst other things, includes an understanding of the expectations, applicable roles and responsibilities in relation to filtering and monitoring) which is regularly updated. In addition, all staff members will receive safeguarding and child protection updates (for example, via email, e-bulletins and staff meetings), as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children effectively. All newly recruited staff (teaching and non-teaching) and will be apprised of this policy and will be required to attend relevant training. In addition, all new staff and temporary staff will be required to attend an induction session with the Designated Safeguarding Lead or their deputy on their first day in the setting.

The Designated Safeguarding Lead (and their Deputies) will attend an appropriate DSL training course and then refresher training at least every two years. The designated safeguarding lead will also undertake Prevent awareness training and will be able to understand the unique risks associated with online safety. In addition to this formal training, their knowledge and skills will be refreshed (for example, via e-bulletins, meeting other designated safeguarding leads or simply taking time to read and digest safeguarding developments) at regular intervals, as required, but at least annually, to allow them to understand and keep up with any developments relevant to their role. Designated staff will be encouraged to attend appropriate network meetings and to participate in the [multi-agency training programme](#) organised by the Southwark Safeguarding Children Partnership (SSCP).

RECRUITMENT

The Villa is committed to the principles of safer recruitment and, as part of that, adopts recruitment procedures that help deter, reject and/or identify people who might abuse children. Safe recruitment processes are followed and all staff recruited to The Villa will be subject to appropriate identity, qualification and health checks. As part of the shortlisting process we will consider carrying out an online search as part of our due diligence on the shortlisted candidates. This may help identify any incidents or issues that have happened, and are publicly available online, which we may explore with the applicant at interview. We will inform shortlisted candidates that online searches may be done as part of due diligence check. References will be verified and appropriate criminal record checks [Disclosure and Barring Service (DBS) checks], barred list checks and prohibition checks will be undertaken. The level of DBS check required, and whether a prohibition check is required, will depend on the role and duties of an applicant to work in the school, as outlined in Part three of the DfE guidance "[Keeping children safe in education](#)". We will also have regard to DfE's statutory guidance for schools about the employment of staff disqualified from childcare "[Disqualification under the Childcare Act 2006](#)".

Relevant members of staff who are involved in recruitment will undertake safer recruitment training. The Villa will ensure that at least one person on any appointment panel has undertaken safer recruitment training in accordance with staffing regulations.

This School and Nursery will only use employment agencies which can demonstrate that they positively vet their supply staff. Any alleged misconduct of temporary or agency staff will be reported to the employer concerned and to the LA's Designated Officer (LADO). Staff joining The Villa on a permanent or temporary basis will be given a copy of this policy, the Staff Handbook, The Staff Code of Conduct, and the Allegation against Staff Procedures.

VOLUNTEERS

Any parent or other person/organisation engaged by The Villa to work in a voluntary capacity with pupils will be subject to all reasonable vetting procedures and Criminal Records Checks.

Under no circumstances a volunteer in respect of whom no checks have been obtained will be left unsupervised or allowed to work in regulated activity.

Volunteers who on an unsupervised basis teach or look after children regularly, or provide personal care on a one-off basis in our school are deemed to be in regulated activity. We will obtain an enhanced DBS certificate (which will include barred list information) for all volunteers who are new to working in regulated activity. Existing volunteers in regulated activity do not have to be re-checked if they have already had a DBS check (which includes barred list information). However, we may conduct a repeat DBS check (which will include barred list information) on any such volunteer should we have any concerns.

The law has removed supervised volunteers from regulated activity. There is no legal requirement to obtain DBS certificate for volunteers who are not in regulated activity and who are supervised regularly and on ongoing day to day basis by a person who is in regulated activity, but an enhanced DBS check without a barred list check may be requested following a risk assessment.

Further information on checks on volunteers can be found in Part three of the DfE guidance "[Keeping children safe in education](#)".

Volunteers will be subject to the same code of conduct as paid employees of The Villa.

Voluntary and third sector groups that operate within this school and nursery or provide off-site services for our pupils or use The Villa's facilities will be expected to adhere to this policy or operate a policy which is compliant with the procedures adopted by the Southwark Safeguarding Children Board. Premises lettings and loans are subject to acceptance of this requirement.

If it comes to our attention that an allegation or complaint of mistreatment has been made against an employee or volunteer of such organisation, this will be reported by the school to the Local Authority's Designated Officer (LADO)

Where services or activities are provided separately by another body we will seek assurance that the body concerned has appropriate safeguarding and child protection policies and procedures in place (including inspecting these as needed); and ensure that there are arrangements in place to liaise with our school on these matter where appropriate. We note the DfE's non-statutory guidance for providers running out-of-school settings.

STAFF CODE OF CONDUCT

All staff (paid and voluntary) are expected to adhere to a code of conduct in respect of their contact with pupils and their families. The Teachers' Standards 2012 state that all teachers, including head teachers, should safeguard children's wellbeing and maintain public trust in the teaching profession as part of their professional duties. Children will be treated with respect and dignity and no punishment, detention, restraint, sanctions or rewards are allowed outside of those detailed in The Villa's Behaviour Management Policies. Whilst it would be unrealistic and undesirable to preclude all physical contact between adults and children, staff are expected to exercise caution and avoid placing themselves in a position where their actions might be open to criticism or misinterpretation. Where incidents occur which might otherwise be misconstrued, or in the exceptional circumstances where it becomes necessary to physically restrain a pupil for their own protection or others' safety, this will be appropriately recorded and reported to the Headteacher and parents. Any physical restraint used will comply with DfE guidance "[Use of reasonable force in schools](#)".

Except in cases of emergency, first aid will only be administered by qualified First Aiders. If it is necessary for the child to remove clothing for first aid treatment, there will, wherever possible, be another adult present. If a child needs help with toileting, nappy changing or washing after soiling themselves, another adult should be present or within earshot. All first aid treatment and non-routine changing or personal care will be recorded and shared with parents/carers at the earliest opportunity.

Children requiring regular medication or therapies for long-term medical conditions will be made the subject of a Care Plan that has been agreed with the parents and health authority.

For their own safety and protection, staff should exercise caution in situations where they are alone with pupils. Other than in formal teaching situations; for example during musical instrument tuition, the door to the room in which the 1:1 coaching, counselling or meeting is taking place should be left open. Where this is not practicable because of the need for confidentiality, another

member of staff will be asked to maintain a presence nearby and a record will be kept of the circumstances of the meeting.

The Villa staff should also be alert to the possible risks that might arise from social contact with pupils outside of the school and nursery. Home visits to pupils or private tuition of pupils should only take place with the knowledge and approval of the Head Teacher or Nursery Manager. Visits/telephone calls by pupils to the homes of staff members should only occur in exceptional circumstances and with the prior knowledge and approval of the Head Teacher or Nursery Manager. Any unplanned contact of this nature or suspected infatuations or “crushes” will be reported to the Head Teacher or Nursery Manager. Staff supervising off-site activities will be provided with a school mobile phone as a point of contact.

Staff will only use the school’s digital technology resources and systems for professional purposes or for uses deemed ‘reasonable’ by the Head and Director. Staff will only use the approved Villa email or other Villa approved communication systems with pupils or parents/carers and only communicate with them on appropriate school and nursery business and will not disclose their personal telephone numbers and email addresses to pupils or parents/carers. Staff will not use personal cameras (digital or otherwise) or camera phones for taking and transferring images of pupils or staff without permission and will not store images at home.

Staff should be aware of The Villa’s whistle-blowing procedures and share immediately any disclosure or concern that relates to a member of staff with the Head teacher or one of the Designated Safeguarding Leads if the Head teacher is not available and nothing should be said to the colleague involved. It should be shared with the Director if it relates to the Head teacher.

CONTRACTORS

Building contractors who are engaged by or on behalf of The Villa to undertake works on site will be made aware of this policy and the reasons for this. Long-term contractors who work regularly at The Villa will be asked to provide their consent for DBS checks to be undertaken. These checks will be undertaken when individual risk assessments by the Leadership Team deem this to be appropriate. During major works, when large numbers of workers and sub-contractors may be on site, Health and Safety risk assessments will include the potential for contractors or their employees to have direct access to pupils in non-teaching sessions. All contractors and sub-contractors will be issued with copies of The Villa’s code of conduct for staff.

Individuals and organisations that are contracted by The Villa to work with or provide services to pupils will be expected to adhere to this policy and their compliance will be monitored. Any such contractors will be subject to the appropriate level of DBS check, if any such check is required (for example because the contractor is carrying out teaching or providing some type of care for or supervision of children regularly). Contractors for whom an appropriate DBS check has not been undertaken will be supervised if they will have contact with children. Under no circumstances we will allow a contractor in respect of whom no checks have been obtained to work unsupervised, or engage in regulated activity. We will determine the appropriate level of supervision depending on the circumstances.

We will always check the identity of contractors and their staff on arrival at The Villa.

COMPLAINTS/ALLEGATIONS MADE AGAINST STAFF

The Villa takes seriously all complaints made against members of staff. Procedures are in place for pupils, parents and staff to share any concern that they may have about the actions of any member staff or volunteer. All such complaints will be brought immediately to the attention of the Head teacher or one of the Designated Safeguarding Leads if the Head teacher is not available and nothing should be said to the colleague involved. In cases where the Head teacher is the subject of the allegation or concern, they will be reported to the Director, in order that they may activate the appropriate procedures. These procedures are used in respect of all cases in which it is alleged that

a teacher or member of staff (including volunteers) in a nursery, school or college that provides education for children under 18 years of age has:

- behaved in a way that has harmed a child, or may have harmed a child;
- possibly committed a criminal offence against or related to a child; or
- behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children.

The Local Authority's Designated Officer(s) (DO) should be informed of all allegations that come to a school's attention and appear to meet the criteria. Contact can also be made with LA's Schools Safeguarding Coordinator who will liaise with the DO. Many cases may well either not meet the criteria set out above, or may do so without warranting consideration of either a police investigation or enquiries by local authority children's social care services. In these cases, local arrangements will be followed to resolve cases without delay.

Some rare allegations will be so serious they will require immediate intervention by children's social care services and/or police. In such cases, referral to the DO will lead to a Strategy Meeting or Discussion being held in accordance with the DfE guidance and London SCB procedures. This process will agree upon the appropriate course of action and the time-scale for investigations.

The Villa has a legal duty to refer to the DBS anyone who has harmed, or poses a risk of harm, to a child and who has been removed from working (paid or unpaid) in regulated activity, or would have been removed had they not left. The DBS will consider whether to bar the person. Referrals will be made as soon as possible after the resignation or removal of the individual.

The full procedures about dealing with allegations of abuse made against teachers and other staff can be found in Part Four of the DfE guidance "[Keeping children safe in education](#)".

The Director is: *Dr I Stoyanov who can be contacted via the main office (0207 703 6216)*

Southwark's LADO is: Eva Simcock – Tel: 020 7525 0689; Mob: 07943076608; Email: Eva.Simcock@southwark.gov.uk. LADO can also be contacted via Qau.Safeguarding@southwark.gov.uk.

There is also a duty system and one of the CP Coordinators in Quality Assurance Unit is on duty each day to deal with LADO issues when LADO is unavailable. Duty telephone number for enquiries/referrals is 020 7525 3297

The LA's Strategic Lead Officer for safeguarding in education services is: the Director of Children's Services Alasdair Smith 02075250654

The LA's Schools Safeguarding Coordinator is: Apo ÇAĞIRICI 020 7525 2715

Family Early Help Service General Education Enquiries: 020 7525 1922

MASH Duty Desk: 020 7525 1921

We also note the '[Safeguarding information for professionals and the community in Southwark](#)' on Southwark Council's website.

RECORDS

Brief and accurate written notes will be kept of all incidents and child protection or child in need concerns relating to individual pupils. These notes are significant especially if the incident or the concern does not lead to a referral to other agencies. This information may be shared directly with other agencies as appropriate. All contact with parents and external agencies will be logged and these will be kept as CP records. The Villa will take into account the views and wishes of the child who is the subject of the concern but staff will be alert to the dangers of colluding with dangerous "secrets".

Child protection records are not open to pupils or parents. All CP records are kept securely by the Designated Safeguarding Lead and separately from educational records. They may only be accessed by the Designated Safeguarding Leads and their Deputy.

The content of Child Protection Conference or Review reports prepared by The Villa will follow the headings recommended by Children's Services and will, wherever possible, be shared with the parents/carer in advance of the meeting.

Child Protection records will be sent to receiving schools and nursery settings separately from the main pupil file and under a confidential cover when pupils leave The Villa, ensuring secure transit and a confirmation of receipt will be obtained.

In addition to the child protection file, the DSL will also consider if it would be appropriate to share any information with the new school or nursery in advance of a child leaving. For example, information that would allow the new school or nursery to continue supporting victims of abuse and have that support in place for when the child arrives.

When we receive child protection records from other schools or nurseries, we will ensure key staff such as the DSL and SENCO are aware as required.

If a pupil is withdrawn from The Villa having not reached the normal date of transfer; due to a family move or any other reason, all efforts will be made to identify any new address and the school or nursery to which they are being admitted and to ensure that their educational records are sent without delay to the child's new school or nursery. If the parent/carer fails to provide this information, an urgent referral will be made to the Family Early Help Service through the Single Point of Contact (SPOC)/ SPOC FEH Team Manager in order for them to make further enquires. If The Villa receives educational records concerning a child who is not registered with us, the records will be returned promptly to the sending school or nursery with a note, advising them to refer to their LA's Children's Services Department. **A child's name will only be removed from the School's Admissions Register in accordance with the DfE guidance Working Together to improve school attendance.**

We will inform the Local Authority when we are about to add or delete a pupil's name from the school admission register for any reason in accordance with Southwark's [Children Missing Education \(CME\) Protocol](#).

If a pupil arrives in our school and the previous school is unknown, we will contact the LA to trace any record of the child. The school will require documentary proof as to the identity of pupils presented for admission. If there is any doubt as to the identity of a pupil, advice will be sought from the local authority and other statutory agencies, as appropriate. We will maintain accurate and up to date records of those with Parental Responsibility and emergency contacts. We will hold more than one emergency contact number for each pupil or student to make contact with a responsible adult when a child missing education is also identified as a welfare and/or safeguarding concern. Pupils will only be released to the care of those with Parental Responsibility or someone acting with their written consent.

We will take actions according to Southwark's [Protocol for Children who are Uncollected from School](#) when pupils who ordinarily do not make their own way home are not collected by their parents/carers at the end of the school day or from after school clubs and activities and when any children with Special Educational Needs who are transported from school can not be dropped-off at their home or meeting point due to the absence of the parent or carer.

SAFETY IN THE SITE

No internal doors to classrooms will be locked whilst pupils are present in these areas.

Entry to The Villa's premises will be controlled by doors that are secured physically or by constant staff supervision or video surveillance. Authorised visitors to The Villa will be logged into and out of the premises and will be asked to wear their identity badges or be issued with visitor badges.

Unidentified visitors will be challenged by staff or reported to the Head teacher/Nursery Manager or main office. Carelessness in closing any controlled entrance will be challenged.

The presence of intruders and suspicious strangers seen loitering near The Villa or approaching pupils, will be reported to the Police by calling 101 or 999, depending on the circumstances and the urgency of the case so that if police stops these individuals they can be spoken to about what they were doing and dealt with accordingly. Brief information about the incident will be sent to LA's Schools Safeguarding Coordinator with a view to alerting other local schools and nurseries in liaison with the police and through appropriate systems.

Parents, carers or relatives may only take still or video photographic images of pupils at The Villa or on Villa-organised activities with the prior consent of the school and nursery and then only in designated areas. Images taken must be for private use only. Recording and/or photographing other than for private use would require the consent of the other parents whose children may be captured on film. Without this consent the Data Protection legislation would be breached. If parents do not wish their children to be photographed or filmed and express this view in writing, their rights will be respected.

CURRICULUM

The Villa acknowledges the important role that the curriculum can play in the prevention of abuse and in the preparation of our pupils for the responsibilities of adult life and citizenship. It is expected that all curriculum co-ordinators will consider the opportunities that exist in their area of responsibility for promoting the welfare and safety of pupils. As appropriate, the curriculum will be used to build resilience, help pupils to keep safe and to know how to ask for help if their safety is threatened. As part of developing a healthy, safer lifestyle, pupils will be taught, for example:

- to recognise and manage risks in different situations and then decide how to behave responsibly;
- to judge what kinds of physical contact are acceptable and unacceptable;
- to recognise when pressure from others (including people they know) threatens their personal safety and well-being; including knowing when and where to get help;
- to use assertiveness techniques to resist unhelpful pressure;
- emotional literacy.

Where necessary we will work with external agencies to support this work, for example via The Agencies Supporting Southwark Programme ([ASSP](#)), which is the quality assurance gateway for all organisations and individuals wishing to work with Southwark's children and young people.

All computer equipment and internet access within The Villa will be subject to appropriate "parental controls" and Internet safety rules in accordance with our Online Safety Policy, which, amongst other things, will include appropriate filtering and monitoring on school devices and school networks.

HEALTHY SCHOOLS AND WELLBEING FIRST: IMPROVING MENTAL HEALTH AND RESILIENCE IN SCHOOLS (IMHARS) PROGRAMME

The Villa will work with partners to promote a whole healthy, inclusive school and nursery approach and achieving the "Healthy School London" status, as well as the local Wellbeing First: Improving Mental Health and Resilience in Schools (IMHARS) Programme award– including a focus on the curriculum as part of the Personal Development (PD)- with the aim of:

- "Closing the gaps" overtime, through using the full capacity and flexibility of the curriculum to help pupils to be safe, confident, healthy, happy and active citizens
- Developing a school and nursery ethos, culture, spiritual, moral, social and cultural (SMSC) development provision and environment which encourages a healthy lifestyle for all pupils, including the vulnerable;
- Using the full capacity and flexibility of the curriculum to help pupils to be safe and healthy;
- Ensuring that food and drink available across the school day reinforce the healthy lifestyle message;

- Providing high quality PSHE including sex and relationship education (SRE) as part of Personal Development
- Providing high quality Physical Education (PE) and sport to promote physical activity and fitness
- Promoting an understanding of the full range of issues and behaviours which impact upon lifelong health and wellbeing, including emotional wellbeing and mental health;
- Working in partnerships with parents/carers, local communities, external agencies and volunteers to support health and wellbeing of all pupils including the vulnerable.

WORKING IN PARTNERSHIP WITH PARENTS

It is our policy to work in partnership with parents or carers to secure the best outcomes for our children. We will therefore communicate as clearly as possible about the aims of this school and nursery.

- We will use clear statements in our brochures and correspondence.
- We will liaise with agencies in the statutory, voluntary and community sectors and locality teams that are active in supporting families.
- We will be alert to the needs of parents/carers who do not have English as their first language and will utilise the translation services as necessary.
- We will distribute the LA's leaflet for parents, "***Protecting Children in Education Settings***".
- We will make available a copy of this policy to any parent who requests it. The policy will also be available through The Villa's web site.
- We will keep parents informed as and when appropriate.

MONITORING AND EVALUATION

The Director will monitor the safeguarding arrangements at The Villa to ensure that these arrangements are having a positive impact on the safety and welfare of children. This will be evaluated on the basis of evidence of:

- the extent to which a positive culture and ethos is created where safeguarding is an important part of everyday life in the school and nursery, backed up by training at every level
- the content, application and effectiveness of safeguarding policies and procedures, and safer recruitment and vetting processes
- the quality of safeguarding practice, including evidence that staff are aware of the signs that children may be at risk of harm either within the setting or in the family or wider community outside the setting
- the timeliness of response to any safeguarding concerns that are raised
- the quality of work to support multi-agency plans around the child.

COMPLAINTS

All complaints arising from the operation of this policy will be considered under The Villa's complaint procedure, with reference to the LA's Strategic Lead Officer for safeguarding in education services, as necessary.
